

2022 IMPACT

Live Free 999's mission is to support programs that provide preventative measures and positive avenues to address mental health challenges and substance dependency. Through financial grants and partnerships, Live Free 999 will bolster organizations providing positive mental health treatments and alternatives to drug use. Beyond providing financial support, Live Free 999 wants to continue the conversation around mental health and addiction.

Live Free 999 was founded by Carmela Wallace to honor her son Jarad "Juice WRLD" Higgins. Through his music, Jarad shared the emotions that tormented him with the world. The messages in his music resonated with others who shared the same struggles. Carmela has received countless messages from his fans stating that Jarad's music helped them with depression and anxiety. Live Free 999 seeks to carry on his legacy.

“
